SUMMARY

Design and research leader with 12+ years building UX programs, research practices, and product strategy across civic technology, enterprise software, and community-centered services. Led multidisciplinary teams of 10+, built research operations from scratch, and driven product decisions at scale. Deep experience designing for expert users, underrepresented communities, and complex institutional contexts.

EXPERIENCE

Senior Manager, Design Automation UX

MathWorks · Natick, MA · Jun 2014 – Aug 2024

- Led multidisciplinary UX team of 10+ across research, design, and accessibility for a global platform used by millions of engineers and scientists worldwide
- Built UX research program from scratch: study templates, synthesis frameworks, diary studies, usability testing infrastructure, and stakeholder reporting cadences
- Drove cross-functional alignment across product, engineering, and executive stakeholders on complex, platform-level design decisions
- Managed program budgets, timelines, and cross-functional priorities over 10-year tenure as Senior Manager
- Mentored emerging researchers and designers; established inclusive team cultures grounded in human-centered values
- Designed for expert technical users (engineers, scientists) requiring depth and precision alongside occasional users needing low-friction onboarding

Head of UX & Product Management

Bang the Table (Granicus ANZ) · Bengaluru, India · Apr 2013 – May 2014

- Led product design and research for civic engagement platforms serving local government clients across Australia and New Zealand
- Designed tools lowering barriers to civic participation for underrepresented and non-expert community members
- Balanced competing stakeholder needs: power-user policy analysts managing 50+ consultations and first-time community participants
- Synthesized qualitative and usability research into actionable product decisions with direct equity implications
